"I AM CERTAIN PERRY HAS TURNED PROFESSIONAL"

(By "REFEREE")

"England will not retain the Davis Cup next year without the services of Fred Perry; either Germany or the United States will succeed; Baron Gottfried von Cramm is the most likely successor to the Wimbledon crown; Fred Perry has turned professional and I believe that he has already signed a contract," were some of the statements made by William T. "Big Bill" Tilden to representatives of the Press in an interview this morning soon after the world famous professional tennis player, accompanied by Mr. Ellsworth Vines and Mrs. Vines, had arrived in the Colony, by the s.s. President Lincoln from Shanghai.

"There is no shadow of a doubt that professional tennis on a paying basis is a financial success and has come to stay for ever, and I am certain that Fred Perry has turned professional and I believe that he has already signed a contract to that effect. although I have no idea what the 'set-up' is like," said Tilden.

CONSTANT BOMBARDMENT FAILS TO DEMORALISE DEFENDERS

London, To-day.

After an all-day battle the Government troops were still holding the insurgents at bay on the far side of the Manganares River, telephoned Reuter's Madrid correspondent at 6.45 p.m. CRITICAL yesterday. The Militia claimed to have advanced about a mile, and heavy gunfire and bombing were believed to have caused 150 to 200 people to be killed and wounded in the capital.

Shells fell in Madrid all the afternoon. Some are reported to have dropped in the Puerto del Sol, Madrid's Trafaigar Square, and others round the Gibeles Square, where are situated the War Office, the Bank of Spain, and the Ministries of Air and Marine. The insurgenis captured two members of the Scottish ambulance during the fighting at Carabanchel.

An earlier message stated that all shops were closed but the cases were open and a large number of people were walking the streets in brilliant sunshine. Shouts of Long live the Republic!" greeted a battalion of newly-equipped Militiamen and a column of 400 navvies as they marched to man the city's fortifications.

Mr. Christopher Holme, Reuter's special correspondent with the insurgent: forces, says that the fighting round Madrid is the toughest so far experienced during the whole war. The Militiamen occupied a magnificent system of concrete trenches and displayed wonderful and determination. despite the constant bombardment all day long. FAST ENCOUNTER AT KING'S PARK

PORTUGUESE HALVES IN THE LIMELIGHT

ANGELLO'S BRILLIANT DISPLAY

(By "Referee")

THE Grupo Desportivo Argonauta won the Civilian Section of the Inter-Section Hockey Tournament yesterday morning at King's Park, when they defeated the Hong Kong Hockey Club by a solitary goal scored by L. Gosano in the opening half of the match, which was witnessed by a very large gathering of spectators.

Conditions were ideal as there was little glare and a cool breeze, while the ground was very fast, but, in spite of the conditions, the standard of hockey on the whole was not very good, although there were flashes of individual brilliance throughout.

The absence of G. Sommer and Jack Rodger, from the Club T. A. PEARCE SETS full-back division made a world of difference to the team, Bond being obviously wasted at right-back, while Taylor, a newcomer to the Club, was likewise a passenger on the left wing. Taylor's inexperience in representative hockey was evident from the start, and it was a mistake by the Club selectors to have played

him in the important left-wing position. A Angello, the winners' inside-left, was in brilliant CLARKE AND MRS. McCAW WIN fettle yesterday and made rings round the Club defenders, his intricate stickwork and openings badly rattling the Club defence time and again, while B. T. A. Pearce set up a new record Gosano, in the centre, was also a live wire in the Portuguese

Glaring Error

A glaring error by Taylor was Old New Total his positioning. He key much too close to Bickford and gave the Argonauta defenders an easy time, instead of lying well up on the touchline and so drawing TILDEN AND their full-back.

Shields made only one vital mistake during the game and this gave the Argonauta the opening they were looking for, and when he advanced out of his goal to attempt a kick at a forward pass by Oliveira, L. Gosano had no difficulty in placing the ball past him into an empty goal!

Poor Halves

E. V. Reed, at left-back, gave a sterling display, but was not fast enough in clearing, while Willy Bead was not his usual self centre-half, although he played a Tilden and H. Food Habits

There seems to be little foundation for the popular belief animals, and in man overlaid by he practices of civilisation, hoice of food. Concerning animals a number of indepenthat training rather than any inherent pressure is the predominant factor in deciding gastronomic likes and dislikes. A critical experiment on rats showed that when fed from infancy on a particular food, they preferred it, though unwholesome, to a thoroughly wholesome though unfamiliar food. Dogs accustomed to eating cooked meat will often refuse, unless driven by hunger, to eat raw meat which, it might be supposed, is their natural food; and many a dog prefers dog-biscuits, for which he cannot possibly be equipped with an instinct, to meat raw or cooked. The truth is that extreme hunger will drive animals to eat anything that might afford them sustenance, and moderate hunger inthey do not know. It would be manager. human food habits. REDUCTION OF CAPITAL

Application Approved By: Court

BANK TO FINANCE SINCERE'S

At the Supreme Court this morning, Mr. Justice J. J. Hayden made an order confirming the reduction of the capital of the Sincere Company from \$12,000,000 to \$10,000,000. remarking that in his opinion it was a sound scheme.

Mr. H. G. Sheldon, K.C., instructed by Mr. R. M. M. King of Messrs, Johnson, Stokes and Master, made the application on behalf of the Company and, in reply to His Lordship, said that there was no opposition.

In addressing the Court Mr. Sheldon said that the Company was incorporated in 1919 with the object of carrying on business; as drapers and furnishing and general warehousemen in all its branches, and the objects set forth in the Memorandum of Association. The capital of the Company is \$12,000,000 divided into 1,000,000 ordinary shares of \$10 each and 1,000,000 Preference shares of \$2 each. The Company 1,000,000 Ordinary has issued 97.691 preference by a resolution shares passed on September 7, 1936, it was resolved as follows:-

Reduction Approved "That the capital of the Company be reduced from \$12,000,000 \$10.000,000 divided into 1.000.000 Ordinary Shares of \$10 each, and that such reduction be effected by cancelling so many of the said Preference Shares as have not been taken or agreed to be taken, and by paying off as capital in excess of the wants of the Company the capital paid up, and not yet repaid, on so many of the Preference Shares as have been taken, and, subject to the sanction of the Court, together with interest at five per cent. per annum from the date when the said Preference Shares were respectively paid for, and then con firmation of the said reduction by the Court, and by confirming, and the Company does hereby confirm, the repayment of the capital on so many of the said Preference Shares as have already been paid off, and that the Preference Shares upon which the capital paid up has been, or shall be, repaid as aforesaid be cancelled." Two Reasons

The paid up share capital proposed to be repaid and which has already been repaid is in excess of the want of the Company for the following reasons:-

(a) The Company was urgently in need of cash for its business and it was decided to endeavour to raise the same by an issue of Preference Shares with very attractive terms. It was hoped to raise a sum of \$2,000,000 by this means and accordingly an extraordinary general meeting of the Company was held on May 8, 1936, when a special resolution was duly passed, increasing the capital from \$10,000,000 to \$12,-000,000 by the creation of 1,000,- had he known that the contracts which never hart. It was also provided to the Company not that in respect of the year 1946 ceeding \$5,000,000 of 8 per cent, per annum, but such financing of the Company that the dividend was not cumulative and capital obtained by the Company should only be payable out of the from the issue of the Preference profits of that year.

ECONOMICS IN FAR EAST

German Minister's Address

DEVELOPMENT SEEN IN CHINA

"CHINA MAIL" SPECIAL.
Berlin, To-day. Before the German World Economic Society the German Director of the Economic Commission to the Far East, Minister Dr. O. C. Kiep, delivered an address on "World economic impression from the Far East."

Dr. Kiep first pointed out that the Far East had, in recent years, greatly increased in importance for Europe. This was partly due to the rapid development of some national economic territories in the Far East and partly by the efforts made by the European countries to open up a new market for the sale of their products. In particular the German export

trade had met with success in the Far East, in the application of the principles of Dr. Schacht's "New Plan"—namely, that Germany could only buy from foreign countries for as much as she could pay for, and would purchase her raw materials from those countries that bought industrial goods from her.
